

OxyVanish™ **【Oxygen absorbing bottle】**

OxyVanish™ is specially designed for use with pharmaceutical and nutraceutical products.

【Functions】

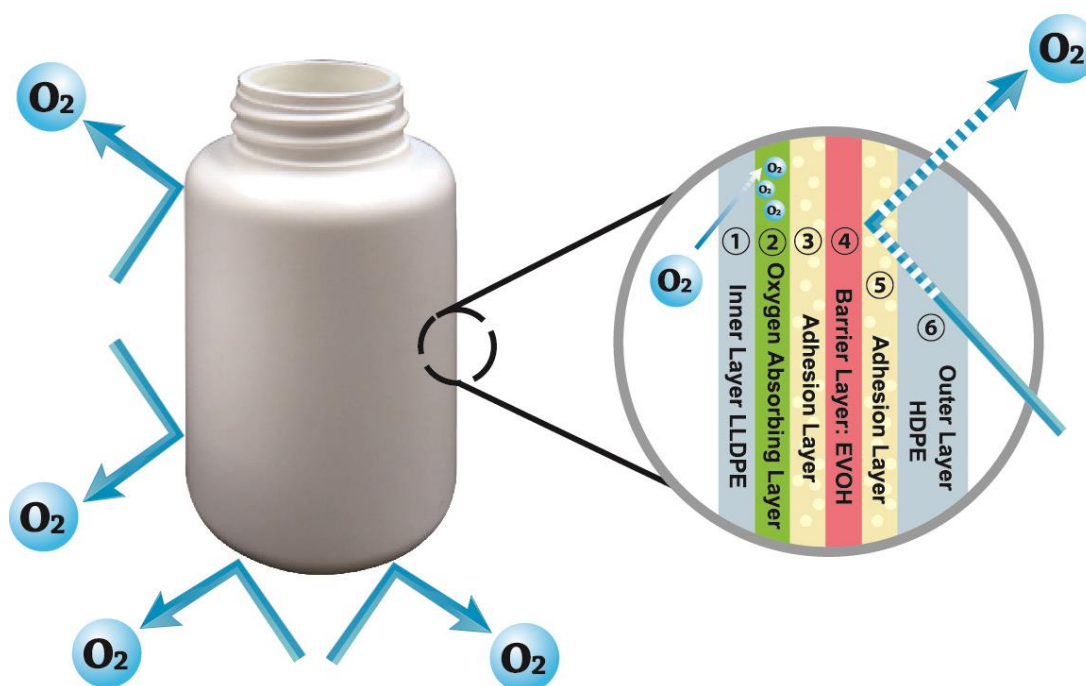

▸ Activates using the natural moisture of a product with mid to high water activity levels.

【Benefits】 Prevent degradation of oxygen sensitive products

- Prevent the degradation of products and extend their shelf life.
- No need for canisters or sachets.

【Applications】 Use with pharmaceutical and nutraceutical products

- Pharmaceutical: Pills, tablets, capsules, and powders
- Nutraceutical: Tablets and capsules

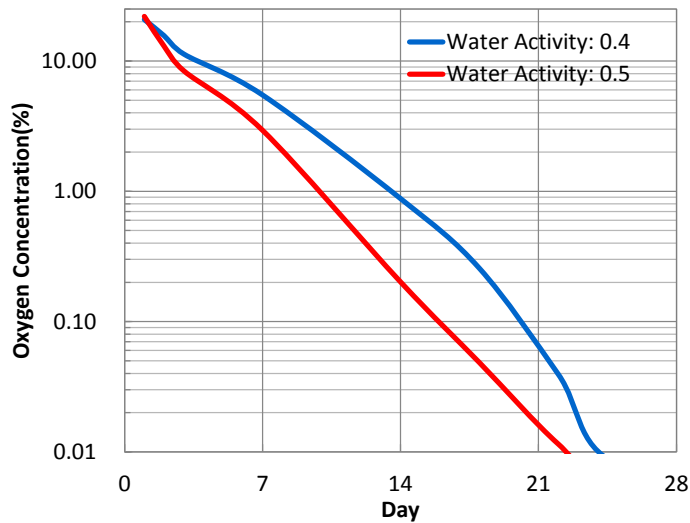

■ Specification

Variety	Volume (ml)	Mouth Diameter (mm)	Dimensions (mm) Diameter × Height	Quantity (Bottles/Case)
OVA-30	30	19.1	37.8×57.8	600
OVA-35	35	25.7	38.1×60.8	600
OVA-40	40	25.7	37.8×60.6	600
OVA-60	60	25.7	39.8×74.9	450
OVA-100	100	25.5	48.8×83.5	250

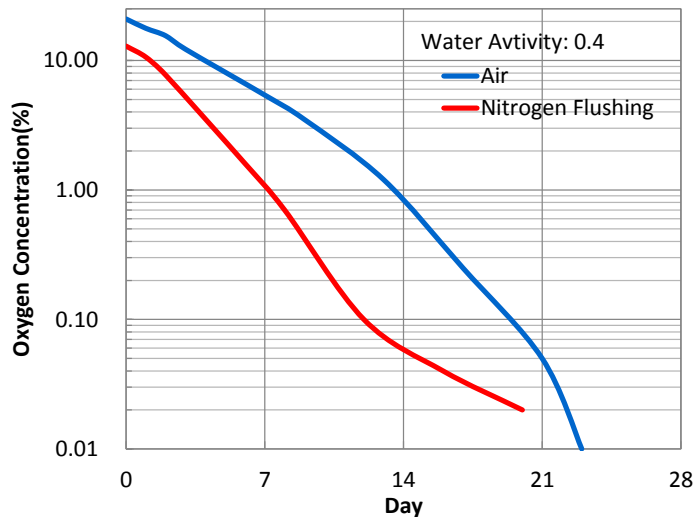

■ O₂ Absorption Time (For your reference)

▸ Standard performance

Size: 100ml
Head space: 60ml
(tests run with glass beads)
Temperature: 25 °C

▸ Combination of OxyVanish™ and Nitrogen Flushing

Water activity: 0.4
Size: 100ml
Head space: 60ml
(tests run with glass beads)
Temperature: 25 °C

- These graphs display preliminary testing data.
- Oxygen absorption performance can be improved.
- We recommend testing OxyVanish™ with actual products under actual conditions.
- FDA 21 CFR Compliant
